SUNWILL

Established 1963

INTRODUCTION

Since the very beginning, SUNWILL has been about making high quality clothes for well-dressed men. Our story began in 1963, in Sundby, Northern Denmark. SUNWILL was established as an exclusive tailor. In 1989, Carl J. Engel brought SUNWILL into the fold of the F.ENGEL Group; an innovative, successful family business, which pioneered the

development of workwear in Denmark since 1927 and had become specialists in men's trousers. A natural match, the family and successful business shared many of the same values of the original SUNWILL company; community-minded, customer-focused, purposeful and fixated on pushing the boundaries of garment production..

EXPERIENCE AND KNOWLEDGE

With decades of experience and knowledge in designing comfortable formalwear, the passion and ambition of 4th. generation owners John and Lars Engel, together with their dedicated team, continued to push the boundaries in new material innovation in the category, with multiple patented designs and collections that have quietly revolutionised

menswear. Getting the right fit, the right style, the right fabric, the right details and making things in the right way so that our customers felt right has always been our focus, since the very beginning. We embrace this past as we look to our future; through changing times, we focus on fit.

6

THE RIGHT FIT

To us the right fit is more than just size. It is the right blend of material, design and construction, to deliver a versatile garment which is stylish yet timeless, tailored yet comfortable and detailed yet subtle.

The right blend of these elements, ensure the right fit to be able to wear it all-day, every day and sit comfortably in your wardrobe as a style staple you can trust in, no matter the occasion.

THE RIGHT FIT

TIMELESS STYLE, MADE TO LAST

9

TIMELESS STYLE, MADE TO LAST

We have a commitment to produce garments which look good for longer. We deliver style that is timeless; crafted from materials which are designed to last. Blending traditional tailoring methods with our modern material craft, every choice is carefully considered—from the choice of fabric, its fibres and weave—to the construction of the design. Each weave chosen is the right fit for the garment's purpose—be it structured, such as Oxford or Herringbone for

formal wear, or a Plain, Linen or Twill for casual wear.

Our speciality derives from our expertise in trouser making and decades of experience producing textiles.

We combine fabric with stretch to craft garments which are versatile and durable enough to cross style boundaries, so they can be worn all-day, every day, for all occasions.

To put it simply, we deliver timeless style, made to last.

TRAVELLER — ALWAYS FRESHLY IRONED

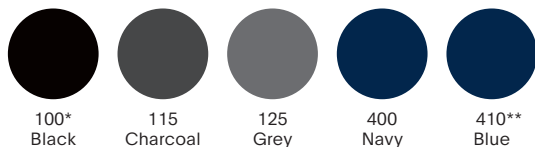

11

TRAVELLER — ALWAYS FRESHLY IRONED

By using a special fabric, these clothes are less likely to crease, even after sitting for many hours. The fabric corrects itself and looks almost freshly ironed. Traveller is most suitable for frequent travellers – or those who need to be presentable and crease-free all day long. The Traveller range consists of many pieces and styles, and contains business attire for both men and women.

EXTREME FLEXIBILITY — FREEDOM ON A WHOLE NEW LEVEL!

Workwear in a whole new dimension. Extremely stretchy and resilient - a feeling of freedom. When it comes to workwear, it is important to feel comfortable. The unique composition of three stretchy textiles gives the Extreme Flexibility series incredible elasticity and dimensional stability.

Although the Extreme Flexibility series is very stretchy, the fit is perfect. The elastic textiles retract to their original position after being worn, so that you are still well dressed even after a long day.

— COLOUR SAFE / WATER AND DIRT REPELLENT

COLOUR SAFE / WATER AND DIRT REPELLENT — FOR EXTRA DURABILITY

43

Business wear needs to be more than just comfortable and presentable, it also needs to be durable and tolerate extra wear. The colour safe technology is a special colour method that makes colours more durable. The fabric is prepared and treated before it is coloured, which binds the colours to the material. This method results in extremely durable colours, which don't fade or turn grey – even after multiple washes.

To avoid stains forming on the clothes, we add a special water and dirt repellent finish on selected pieces. This finish acts as a special layer that prevents liquid from penetrating the fibres. Any spillages on the clothes will just glide off without leaving any visible marks.

- SUPER STRETCH JEANS - FOR BETTER COMFORT

49

SUPER STRETCH JEANS — FOR BETTER COMFORT

A nice pair of jeans is the perfect attire for a more casual look. However, the problem with many jeans is that the fabric can seem stiff and inflexible, which is hardly optimal if your job requires you to sit for long periods of time.

The Super Stretch fabric contains larger quantities of elastic fibres than other stretchy fabric. The elastic fibres woven into the fabric make it extra flexible, so that it follows the body's movements. As well as providing supreme comfort, super stretch clothing stands out by its ability to return to its original shape, and thus keeping its shape for longer.

**AT SUNWILL, WE TAKE RESPONSIBILITY
FOR THE ENVIRONMENT**

ENVIRONMENTALLY

We cooperate with suppliers who have environmentally friendly production facilities. Selected suppliers use alternative energy sources (solar cell energy).

RECYCLED PLASTIC

We pack our products in bags made from recycled plastic.

REDUCE CO2 EMISSIONS

90% of our production takes place in Europe to reduce CO2 emissions.

**MINIMAL TRANSPORT
DEPARTURE**

Only one weekly transport departure from our factories in Lithuania.

**REDUCED WATER
CONSUMPTION**

We strive to use materials that are produced with reduced water consumption.

**AVOIDING
OVERPRODUCTION**

Monitor stock to avoid overproduction of NOS (Never Out of Stock) articles.

ON-DEMAND

We produce and deliver on-demand collections of fabric that may still be in stock.

ALTERNATIVES

We suggest alternatives to out of stock items.

TIMELESS DESIGNS

We design timeless collections.

PHILOSOPHY AND SUSTAINABLE ACTIVITIES

From the very beginning, SUNWILL has been about making high quality clothing for the well-dressed man. We believe that the road to a more sustainable wardrobe starts with good, timeless design in a quality that lasts season after season.

We offer customers an alternative to rapidly changing trends and fast fashion - something that is often associated with overproduction in factories far from the consumer.

At SUNWILL, fit and functionality is of high priority, and we take pride in designing clothes that can be used for multiple occasions simply by changing accessories and shirts. With durable quality and good design, you do not have to fill the

wardrobe with clothes that you do not really need. A pair of jeans, a pair of trousers or a blazer that fits well and is made from durable materials is far more powerful - environmentally - than using a small number of recycled fibers in one garment.

By adding smart, yet elegant details, we strive to ensure that the majority of SUNWILL's products last longer by choosing high quality materials and strive for a production that is as environmentally friendly as possible. Therefore, we continuously work to ensure that materials and clothing are produced responsibly with respect for the environment and the people involved.
